

UNIVERSITÉ  
DE GENÈVE

# *Advanced Statistical Inference*

Davide La Vecchia

Fall term 2021-2022

# *General info*

- Lectures (live and recording on Zoom): Tue. from 8:15 to 10
- Exercises/Tutorials (live and recording on Zoom, pdf available on Moodle): Wed. from 14 to 16. Tutor: Alban Moor.

As far the tutorials (TPs) are concerned, on Moodle you find the course time schedule with the info on class rooms.

## *Remark (\*Relevant info\*)*

- *Schedule*
  - *First week: NO tutorial  $\Rightarrow$  two lectures*
  - *From 2nd week on, lecture on Tue. and tutorial session on Wed.*

# General info

## *Remark (\*Relevant info\*)*

- *Schedule*
  - *First week: NO tutorial  $\Rightarrow$  two lectures*
  - *From 2nd week on, lecture on Tue. and tutorial session on Wed.*
- *Materials*
  - *Slides are in the pdfs, which contain also handwritten parts (proofs and some exercises)*
  - *Additional reading materials and R-codes available at*

# *General info [my personal view of this class]*

Statistics is a vast scientific area...an immense playground.

# *General info [my personal view of this class]*

Statistics is a vast scientific area...an immense playground. In this playground, you can do many things: code, crunch data, develop novel theory...

# *General info [my personal view of this class]*

Statistics is a vast scientific area...an immense playground. In this playground, you can do many things: code, crunch data, develop novel theory... At the end of this class, I hope you will be equipped with the fundamental methods and tools, so you can turn data into information,

## *General info [my personal view of this class]*

Statistics is a vast scientific area...an immense playground. In this playground, you can do many things: code, crunch data, develop novel theory... At the end of this class, I hope you will be equipped with the fundamental methods and tools, so you can turn data into information, information into knowledge,
